March 13, 2025

Thai Enquirer News Summary

Economic News

- The tripartite wage committee did not decide on raising the daily minimum wage to 400 Baht for the rest of the country yesterday.

Boonsong Thapchaiyut, Permanent Secretary of the Ministry of Labour, announced that the Wage Committee has approved a survey on the impact of the wage increase that took effect on January 1, 2025. The next meeting will be held on April 8 at 1:30 PM.

- ❖ Boonsong explained that the meeting was scheduled before the current board's term ends on March 13. Three members were absent: 2 from the Ministry of Finance and

Ministry of Commerce, and 1 from the employer sector. As a result, 12 out of 15 members were present.

- ❖ He said the committee will focus on the impact of the earlier wage increase, gathering feedback on its effects on employers, employees, and the cost of living before discussing the next hike. He also mentioned considering wage standards for specific professions, such as mechanics and electricians, but no conclusion has been reached. However, this is not the final meeting of the current board, which will continue to function until a new one is appointed.

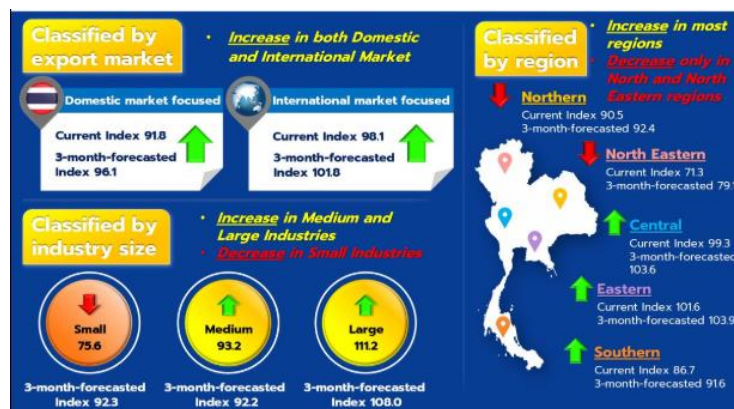

- Kriangkrai Thiennukun, Chairman of the Federation of Thai Industries (FTI), revealed that on the afternoon of March 13, the Joint Standing Committee on Commerce, Industry, and Banking will meet with Prime Minister Paetongtarn Shinawatra to discuss preparations for U.S. trade measures.
 - ❖ The committee will propose 3 key measures, including an immediate short-term measure to promote the use of locally made products under the "Made in Thailand (MIT)" initiative. The proposal suggests increasing the required proportion of domestically produced goods from 15% to 50%, which would amount to 400-500 billion Baht.
 - ❖ Additionally, the committee will address the surge of low-cost imports from China, as Thailand's imports from China in January 2025 increased by 27% year-on-year, impacting 24 industrial sectors.
- Prime Minister Paetongtarn Shinawatra attended the Board of Investment (BoI) 'Ignite Thailand' event yesterday during which she said that Thailand was a country that could harness the ongoing geopolitical upheaval to its benefit.
 - ❖ Thailand is well-positioned to be a gateway for investment and innovation, with strengths in tourism, wellness, agriculture, logistics, digital economy, and finance.

- ❖ PM Paetongtarn highlighted that the country could be a premier hub through enhancing infrastructure, promoting digital transformation, and fostering sustainable development.

- The Thai Industries Sentiment Index (TISI) rose to 93.4 in February 2025 from 91.6 in January. This increase followed the Monetary Policy Committee’s decision to lower the policy interest rate by 0.25% from 2.25% to 2.00% per year, reducing financial costs, improving liquidity for businesses, and stimulating consumption and investment, according to the Federation of Thai Industries.
 - ❖ The extension of the "You Fight, We Help" debt relief program to April 30, 2025, had 746,912 accounts participating as of February 10, 2025.
 - ❖ Economic stimulus measures, such as the Easy E-Receipt 2.0 cash rebate program (January 16 – February 28, 2025) and Phase 2 of the 10,000-Baht handout to 3 million elderly people, also boosted domestic consumption. The government’s accelerated spending, particularly on construction projects, supported the construction materials industry.

- Chavinda Hanratanakool, President of the Association of Investment Management Companies (AIMC), stated that the Thai ESG Extra Fund (TESGX) is expected to attract 20-30 billion Baht in new investments when the Thai ESGX fund opens for investment between May and June. Meanwhile, there is hope that a significant portion of capital will transfer from Long-Term Equity Funds. Currently, the outstanding value of LTFs has fallen below 180 billion Baht due to market declines.
 - ❖ Assadej Kongsiri, Director and President of the Stock Exchange of Thailand, revealed that 242 stocks have received an ESG rating, accounting for 70-80% of the total market. Additionally, 14 companies, including TRUE, ERW, and BCP, have disclosed greenhouse gas emissions data but have not yet received an ESG rating.
 - ❖ For listed companies undergoing mergers, such as GULF and INTUCH, which are currently included in the Thai ESG and TEGSX fund lists, their inclusion will stay unchanged once the merger is completed in April. The newly merged company will retain its AAA ESG rating.

- The Stock Exchange of Thailand (SET) index closed yesterday at 1,160.06 points, down 27.57 points (-2.32%), with a trading value of 46.28 billion Baht. The sharp decline was driven by concerns over the U.S. trade war, which weighed on global stock markets. Domestically, the market has already absorbed much of the impact from the proposed establishment of the Thai ESGX fund, and there were no new positive factors.

❖ The top 5 most traded stocks yesterday were:

- TRUE, which recorded a trading value of 2.55 billion Baht and closed at 10.60 Baht, down 0.40 Baht.
- AOT followed with a trading value of 2.33 billion Baht, closing at 39.75 Baht, a drop of 1.00 Baht.
- PTT had a trading value of 2.31 billion Baht and ended the day at 27.25 Baht, down 0.75 Baht.
- Meanwhile, DELTA saw a trading value of 2.08 billion Baht, closing at 69.00 Baht, a decline of 5.00 Baht.
- ADVANC also experienced heavy selling pressure, with a trading value of 1.96 billion Baht, closing at 265.00 Baht, down 5.00 Baht.

PTTEP	107.50↓	-2.00	-1.83	-0.64

- Shares of True Corporation Plc (TRUE) closed at 10.60 Baht yesterday, down 0.40 Baht or 3.64%, with a trading value of 2.62 billion Baht.

❖ According to brokers, the decline was likely an indirect impact of the proposed establishment of the Thai ESGX fund, which is expected to receive capital transfers from LTF funds.

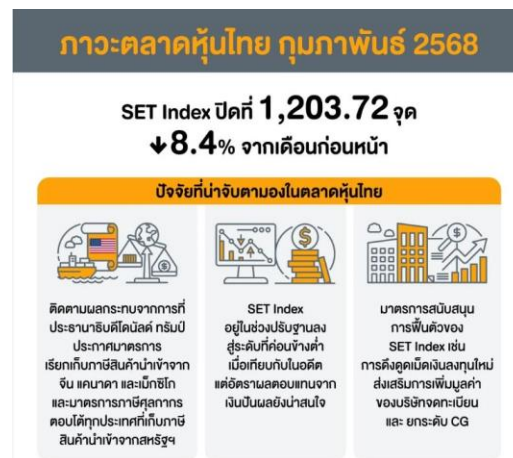

- ❖ TRUE has not yet received an ESG rating since it is a newly formed company following the TRUE-DTAC merger and has only been operating for 2 years. To qualify for an ESG rating, a company must have been in operation for at least 3 years.
- Yesterday, shares of Plan B Media Plc (PLANB) dropped sharply, closing at 5.70 Baht, down 0.30 Baht or 5%, with a trading value of more than 155.12 million Baht. The decline was driven by investor concerns that revenue from managing the broadcasting rights for the Thai League and the national football team under the Football Association of Thailand (FAT) might not meet expectations.
 - ❖ This comes after the FAT was ordered to pay damages of 360-560 million Baht due to the termination of its contract with Siam Sport.

Despite this, FAT President Nualphan Lamsam has confirmed that the contract with PLANB will not be cancelled, as PLANB has guaranteed higher revenue for the association, reinstated ticket sales rights, and secured broadcast guarantees with Thai Rath and PPTV.

- ❖ Thannaporn Techavivorarat, PLANB's Deputy CEO for Investor Relations, said the company expects core revenue to grow 5-6% in 2025, up from 9.2 billion Baht in 2024.
- The Securities and Exchange Commission (SEC) has disclosed a report on March 12, 2025, via Form 246-2 that Capital Asia Investments Pte Ltd. (CAI), a Singapore-based fund management company, has sold shares of Bangchak Corporation Public Company Limited (BCP) through a Big Lot transaction amounting to 123,923,085 shares, representing 9% of the company's total voting rights.
 - ❖ The sale took place on March 5, 2025, and was conducted through Maybank Securities (Thailand), selling to Thai NVDR Company Limited. Following the sale of BCP shares by CAI, the number of shares held has decreased to 66,936,315 shares, or 4.8612% of the total voting rights, positioning CAI as the fourth largest shareholder in the company.
 - ❖ The sales occurred after months of speculation whether the Singaporean investment fund is aiming to up its stake in BCP, following several transactions it made to acquire the company in the past few months. Prior to this sale of BCP shares on March 5, the SEC disclosed that CAI had acquired BCP shares through CGS-CIMB International Securities Singapore Pte. Ltd, purchasing 81,781,200 shares on December 20, 2024, representing 5.94% of the voting rights, and buying an additional 55,911,200 shares on December 30, 2024, representing 4.06%. This

brought CAI's total holdings to 137,692,400 shares, or about 10% of the total voting rights of the company.

- Soraphol Tulayasathien, Deputy Manager and Head of Corporate Strategy at the Stock Exchange of Thailand, reported that as of the end of February 2025, the SET index was undergoing a correction, having dropped over 17.9% from its recent peak. However, the dividend yield remained attractive compared to historical trends.
 - ❖ In terms of market valuation, the P/E ratio stood between 12.5 and 16.6 times, while the P/BV ratio ranged from 1.2 to 1.4 times, significantly lower than the averages seen in previous market corrections. Most of the declines were concentrated in stocks with high P/E ratios.

- The Bank of Thailand (BoT) was named Central Bank of the Year 2025 by Central Banking for its balanced approach to supporting the economy while maintaining long-term stability. The leading publication on global central banks and financial regulators praised the BoT for maintaining autonomy in monetary policy and promoting financial sector reforms despite political pressure.
 - ❖ It highlighted the BoT's gradual approach to normalization, raising the policy rate to 2.5% in 2023 and reducing it to 2.25% in 2024 to support economic recovery. This strategy helped bring inflation back to pre-pandemic levels in just six months. Despite criticism from former Prime Minister Thaksin Shinawatra, the Srettha administration, and the Paetongtarn administration, the BoT defended its independence and prioritized long-term stability, the publication said.
 - ❖ By staying independent and focused on long-term goals, the BoT has strengthened Thailand's economy, demonstrating resilience amid political challenges, they added.

Political News

- The Constitutional Court rejected the Cabinet's request to clarify qualifications for ministers, stating that the request was only a consultation and not an actual issue concerning the Prime Minister and Cabinet's duties and powers. The request was submitted by PM's Office Minister Chusak Sirinil, asking the court to determine whether the Prime Minister and Cabinet must follow specific qualifications when proposing individuals for royal appointment as ministers.
 - ❖ The court stated that it is the Prime Minister's responsibility to assess whether individuals meet the required qualifications before proposing them for royal appointment. If legal disputes arise, the courts will handle them according to the law.
 - ❖ Additionally, the court said that appointing individuals to political positions other than ministers is under the Cabinet's authority, not the Constitution, and therefore falls outside the court's jurisdiction. The court decided, by a majority vote of 8 to 1, not to accept the petition for consideration.

- Pol Maj Gen Chattawat Saengphet, a senator, led a group of 81 senators in submitting a petition to the National Anti-Corruption Commission (NACC) against Pol Col Tawe Sodsong, Minister of Justice, and Pol Lt Col Yutthana Praedam, Director-General of the Department of Special Investigation (DSI), accusing them of neglect of duty under Section 157 of the Criminal Code.

- ❖ The petition argues that the DSI’s Special Case Committee improperly accepted a money laundering case involving senators as a special case, despite lacking the authority to do so. A total of 105 senators signed the complaint.
- ❖ Chatrawat said the EC is responsible for verifying senator elections under the Constitution and laws and likely has more evidence than the DSI since the EC already reviewed the complaints carefully. If the DSI lacked authority, it should have sent the evidence to the EC instead of keeping it. He warned of political interference in the investigation and said the DSI had overstepped its authority.
- After 105 senators filed a complaint against Justice Minister Tawe Sodsong and DSI Director-General Yutthana Praedam for alleged abuse of power, backup senators have also asked the EC to investigate its secretary-general, Sawang Boonmee, for neglecting his duties and called for his suspension.
 - ❖ The backup senators were the ones who initially asked the DSI to investigate the alleged vote-fixing, claiming the EC was taking too long with little progress. They submitted evidence of the alleged scheme, which included a pre-arranged list of 140 people, from which candidates were selected. Of those, 138 actually became senators.

- Meanwhile Nathaporn Toprayoon, a former adviser to the Ombudsman, has filed a petition with the Constitutional Court asking for action against the Election Commission (EC) over an allegedly unfair Senate election in June 2024. He also accused Deputy Prime Minister Anutin Charnvirakul, leader of Bhumjai Thai, and Senate Speaker Mongkol Surasajja of being involved in vote-rigging, which could lead to the dissolution of the Bhumjai Thai Party.
 - ❖ Nathaporn argued that the election may have violated Section 5 of the Constitution, which states that unconstitutional actions have no legal effect. If ruled unconstitutional, the entire election process would be invalid.
 - ❖ His petition focuses on the EC's failure to properly carry out its duties. First, the election was not fair, with evidence of vote-buying and collusion. The Department of Special Investigation (DSI) has been looking into this since September 2024.

- Former Prime Minister Thaksin Shinawatra is scheduled to visit Phitsanulok province to meet with the public at the event called "Stories of Struggles for Democracy by the Masses" on March 17 at Phitsanulok University.
 - ❖ The event is expected to draw people from Phitsanulok and nearby provinces, including Phichit, Uttaradit, Kamphaeng Phet, and Tak.

- The Criminal Court for Corruption and Misconduct in Region 1 has sentenced the former chief of Chai Nat Provincial Administrative Organization (PAO) to 50 years in prison for corruption involving sports subsidy funds.

- ❖ The Office of the National Anti-Corruption Commission (NACC) reported that Anusorn Nakhasai, while serving as Chai PAO chief, misused funds for 21 sports projects and two public health projects in Chai Nat during the 2009–2010 fiscal years. On December 18, the court found Anusorn guilty and sentenced him to 5 years in prison for each of the 15 offenses. Each sentence was reduced by one-third, totaling 45 years and 60 months in prison.
- ❖ On February 25, the NACC confirmed that the Attorney General's Office would not appeal the decision.

- The 12-billion-Baht parliament building, built by Sino-Thai Engineering and Construction, is leaking again. This time, a water pipe burst in the ceiling of the B1 basement parking area, flooding the floor. Cleaning staff had to be called in to clean up, disrupting access to the B1 parking level. Parliamentary police managed the situation, temporarily closing off the area while maintenance staff worked to repair the ceiling.
- ❖ Last November, former Democrat MP for Bangkok, Vilas Chanpitaksa, said the building is facing ongoing issues with its sanitary system, such as overflowing toilets. The flooding in November also damaged escalators and caused bad odors in the area. These system failures, which used to happen almost daily, now occur about once a week. If the wastewater treatment system fails, it could flood nearby parking areas.

General News

- Yesterday, a summer storm struck the Lumphuk sub-district in Kham Khuen Kaew district, Yasothon province, bringing hail and causing panic among the locals, as this event had not been witnessed in nearly 60 years. Initially, over 100 houses were reported to have been damaged.

- ❖ The Meteorological Department forecasts today that thunderstorms with strong winds will occur across Thailand. In the Southern region and the Andaman Sea, waves are expected to rise over 2 meters high.
